# AUTHOR INDEX

Abeyawardene, S.A. and Pope, G.S. (Reading, Great Britian)
The involvement of progesterone and luteinizing hormone in the termination of the post-ovulatory rise in plasma oestradiol-17$\beta$ concentration in cattle ..... 27
Al-Gubory, K.H., Martinet, J., Paly, J. and Solari, A. (Jouy-en-Josas, France)
A new concept for control of folliculogenesis during pregnancy in ewes: role of the corpus luteum ..... 113
Bahr, J.M., *see* Frank, G.R. et al.
Bamberg, E., *see* Choi, H.S. et al.
Berglund, B. and Philipsson, J. (Uppsala, Sweden)
The influence of relative birth weight and certain other factors on calving performance in Swedish dairy cattle breeds ..... 81
Berglund, B., Philipsson, J. and Danell, Ö. (Uppsala, Sweden)
External signs of preparation for calving and course of parturition in Swedish dairy cattle breeds ..... 61
Bevers, M.M. and Dieleman, S.J. (Utrecht, The Netherlands)
Superovulation of cows with PMSG: variation in plasma concentrations of progesterone, oestradiol, LH, cortisol, prolactin and PMSG and in number of preovulatory follicles ..... 37
Bonneau, M., Carrié-Lemoine, J. (l'Hermitage, France) and Mesure-Morat, M. (Aubiere, France)
Genital tract development and histomorphometrical traits of the testis in the young boar: relationships with fat 5$\alpha$-androstenone levels ..... 259
Bonneau, M., Carrié-Lemoine, J., Prunier, A. (l'Hermitage, France), Garnier, D.H. (Rennes, France) and Terqui, M. (Nouzilly, France)
Age-related changes in plasma LH and testosterone concentration profiles and fat 5$\alpha$-androstenone content in the young boar ..... 241
Boos, A., Peukert-Adam, I., Meyer, W., Schwarz, R. and Grunert, E. (Hannover, Federal Republic of Germany)
Activity of $\Delta^5$-3$\beta$-hydroxysteroid dehydrogenase, succinate dehydrogenase, and glucose-6-phosphate dehydrogenase in bovine luteinized follicular cysts and corpora lutea of estrous cycle: a quantitative histochemical study ..... 145
Carrié-Lemoine, J., *see* Bonneau, M. et al., pp. 241, 259
Choi, H.S., Kiesenhofer, E., Gantner, H., Hois, J. and Bamberg, E. (Vienna, Austria)
Pregnancy diagnosis in sows by estimation of oestrogens in blood, urine or faeces ..... 209
Collins, C., *see* Stone, B.A. et al., p. 217
Curson, B., *see* Shannon, P. and Curson, B.
Danell, Ö., *see* Berglund, B. et al.
Demirci, E. (Elazığ, Turkey)
Fertility in Purebred Arab horses in Turkey ..... 265
Dieleman, S.J., *see* Bevers, M.M. and Dieleman, S.J.
Driancourt, M.A., *see* Philipon, P. and Driancourt, M.A.
ElWishy, A.B. (Giza, Egypt)
Reproduction in the female dromedary (*Camelus dromedarius*): a review ..... 273
Esch, M.W., *see* Frank, G.R. et al.
Frank, G.R. (Princess Anne, MD, U.S.A.), Noble, R.C., Esch, M.W., Green, C. and Bahr, J.M. (Urbana, IL, U.S.A.)
Direct estimation of estrone sulfate in serum and urine of pregnant swine as indicators of litter size at birth ..... 121

Frisch, J.E., Munro, R.K. and O'Neill, C.J. (Rockhampton Mail Centre, Qld., Australia)
Some factors related to calf crops of Brahman, Brahman crossbred and Hereford × Shorthorn cows in a stressful tropical environment ..... 1
Gantner H., *see* Choi, H.S. et al.
Garnier, D.H., *see* Bonneau, M. et al., p. 241
Ginther, O.J., *see* Townson, D.H. and Ginther, O.J.
Ginther, O.J., *see* Pierson, R.A. and Ginther, O.J.
Green, C., *see* Frank, G.R. et al.
Grunert, E., *see* Boos, A. et al.
Hafi, C.B., *see* Wang, J.Y. et al.
Heap, P.A., *see* Stone, B.A. et al., p. 217
Hois, J., *see* Choi, H.S. et al.
Ito, S., *see* Umezu, M. et al.
Kiesenhofer, E., *see* Choi, H.S. et al.
Larson, L.L., *see* Wang, J.Y. et al.
MacLennan, A.H., *see* Stone, B.A. et al., p. 227
Martinet, J., *see* Al-Gubory, K.H. et al.
Masaki, J., *see* Umezu, M. et al.
Mesure-Morat, M., *see* Bonneau, M. et al., p. 259
Meyer, W., *see* Boos, A. et al.
Miyamoto, A., *see* Umezu, M. et al.
Munro, R.K., *see* Frisch, J.E. et al.
Noble, R.C., *see* Frank, G.R. et al.
O'Neill, C.J., *see* Frisch, J.E. et al.
Ohta, M., *see* Umezu, M. et al.
Owen, F.G., *see* Wang, J.Y. et al.
Paly, J., *see* Al-Gubory, K.H. et al.
Petrucco, O.M., *see* Stone, B.A. et al., p. 227
Peukert-Adam, I., *see* Boos, A. et al.
Philipon, P. and Driancourt, M.A. (Nouzilly, France)
Potential of active immunization against androstenedione to improve fecundity in sheep ..... 101
Philipsson, J., *see* Berglund, B. et al.
Philipsson, J., *see* Berglund, B. and Philipsson, J.
Pierson, R.A. and Ginther, O.J. (Madison, WI, U.S.A.)
Intraovarian effect of the corpus luteum on ovarian follicles during early pregnancy in heifers ..... 53
Pope, G.S., *see* Abeyawardene, S.A. and Pope, G.S.
Prunier, A., *see* Bonneau, M. et al., p. 241
Robertson, L. and Watson, P.F. (London, Great Britain)
The effect of egg yolk on the control of intracellular calcium in ram spermatozoa cooled and stored at 5°C ..... 177
Schwarz, R., *see* Boos, A. et al.
Seamark, R.F., *see* Stone, B.A. et al., p. 227
Shannon, P. and Curson, B. (Hamilton, New Zealand)
The effect of ions and caffeine on the maintenance of motility of bovine spermatozoa diluted in egg yolk buffers ..... 161
Simpson, A.M. and White, I.G. (Sydney, N.S.W., Australia)
Interrelationships between motility, c-AMP, respiration and calcium uptake of ram and boar sperm ..... 189

Solari, A., *see* Al-Gubory, K.H. et al.
Stone, B.A., Heap, P.A. and Collins, C. (Adelaide, S.A., Australia)
Luteal characteristics and embryonic survival in gilts treated with human chorionic gonadotrophin during early pregnancy ..... 217
Stone, B.A., Petrucco, O.M., Seamark, R.F. and MacLennan, A.H. (Woodville, S.A., Australia)
Concentrations of steroid hormones, and of relaxin, in utero-ovarian venous plasma of periparturient sows ..... 227
Terqui, M., *see* Bonneau, M. et al., p. 241
Thompson, J.G.E. and Wales, R.G. (Murdoch, W.A., Australia)
Observations on the loss of the cellular vestment surrounding superovulated sheep oocytes ..... 169
Townson, D.H. and Ginther, O.J. (Madison, WI, U.S.A.)
Duration and pattern of follicular evacuation during ovulation in the mare ..... 131
Umezu, M., Miyamoto, A., Ito, S., Masaki, J. (Sendai, Japan) and Ohta, M. (Narugo-machi, Japan)
Correlation of the mating behaviour of bulls with patterns of gonadotrophins and oestrogens in oestrous cows ..... 95
Wales, R.G., *see* Thompson, J.G.E. and Wales, R.G.
Wang, J.Y., Hafi, C.B., Owen, F.G. and Larson, L.L. (Lincoln, NE, U.S.A.)
Effect of beta-carotene supplementation on periparturient health and reproduction of Holstein cows ..... 139
Watson, P.F., *see* Robertson, L. and Watson, P.F.
White, I.G., *see* Simpson, A.M. and White, I.G.

# SUBJECT INDEX

Androstenedione
Potential of active immunization against androstenedione to improve fecundity in sheep ..... 101
Androstenone
Age-related changes in plasma LH and testosterone concentration profiles and fat 5α-androstenone content in the young boar ..... 241
Genital tract development and histomorphometrical traits of the testis in the young boar: relationships with fat 5α-androstenone levels ..... 259
Behaviour
Mating behaviour of bulls, correlation with patterns of gonadotrophins and oestrogens in oestrous cows ..... 95
Birth weight
Influence of relative birth weight and certain other factors on calving performance in Swedish dairy cattle breeds ..... 81
Calcium
Effect of egg yolk on the control of intracellular calcium in ram spermatozoa cooled and stored at 5 °C ..... 177
Interrelationships between motility, c-AMP, respiration and calcium uptake of ram and boar sperm ..... 189
Carotene
Effect of beta-carotene supplementation on periparturient health and reproduction of Holstein cows ..... 139
Factors related to calf crops of Brahman, Brahman crossbred and Hereford × Shorthorn cows in a stressful tropical environment ..... 1
Cattle
Activity of $\Delta^5$-3β-hydroxysteroid dehydrogenase, succinate dehydrogenase, and glucose-6-phosphate dehydrogenase in bovine luteinized follicular cysts and corpora lutea of estrous cycle: a quantitative histochemical study ..... 145
Correlation of mating behaviour of bulls with patterns of gonadotrophins and oestrogens in oestrous cows ..... 95
Effect of beta-carotene supplementation on periparturient health and reproduction of Holstein cows ..... 139
Effect of ions and caffeine on the maintenance of motility of bovine spermatozoa diluted in egg yolk buffers ..... 161
External signs of preparation for calving and course of parturition in Swedish dairy breeds ..... 61
Factors related to calf crops of Brahman, Brahman crossbred and Hereford × Shorthorn cows in a stressful tropical environment ..... 1
Influence of relative birth weight and certain other factors on calving performance in Swedish dairy breeds ..... 81
Intraovarian effect of the corpus luteum on ovarian follicles during early pregnancy in heifers ..... 53
Involvement of progesterone and luteinizing hormone in the termination of the post-ovulatory rise in plasma oestradiol-17β concentration ..... 27
Superovulation of cows with PMSG: variation in plasma concentrations of progesterone, oestradiol, LH, cortisol, prolactin and PMSG and in number of preovulatory follicles . 37

Corpus luteum
Activity of $\Delta^5$-3$\beta$-hydroxysteroid dehydrogenase, succinate dehydrogenase, and glucose-6-phosphate dehydrogenase in bovine luteinized follicular cysts and corpora lutea of estrous cycle: a quantitative histochemical study ..... 145
Intraovarian effect on ovarian follicles during early pregnancy in heifers ..... 53
Luteal characteristics and embryonic survival in gilts treated with human chorionic gonadotrophin during early pregnancy ..... 217
New concept for control of folliculogenesis during pregnancy in ewes: role of the corpus luteum ..... 113
Cortisol
Superovulation of cows with PMSG: variation in plasma concentrations of progesterone, oestradiol, LH, cortisol, prolactin and PMSG and in number of preovulatory follicles . 37
Dromedary
Reproduction in the female dromedary (*Camelus dromedarius*): a review ..... 273
Endocrinology, female
Concentrations of steroid hormones, and of relaxin, in utero-ovarian venous plasma of periparturient sows ..... 227
Correlation of mating behaviour of bulls with patterns of gonadotrophins and oestrogens in oestrous cows ..... 95
Direct estimation of estrone sulfate in serum and urine of pregnant swine as indicators of litter size at birth ..... 121
Factors related to calf crops of Brahman, Brahman crossbred and Hereford × Shorthorn cows in a stressful tropical environment ..... 1
Involvement of progesterone and luteinizing hormone in the termination of the post-ovulatory rise in plasma oestradiol-17$\beta$ concentration in cattle ..... 27
Pregnancy diagnosis in sows by estimation of oestrogens in blood, urine or faeces ..... 209
Reproduction in the female dromedary (*Camelus dromedarius*): a review ..... 273
Superovulation of cows with PMSG: variation in plasma concentrations of progesterone, oestradiol, LH, cortisol, prolactin and PMSG and in number of preovulatory follicles . 37
Endocrinology, male
Age-related changes in plasma LH and testosterone concentration profiles and fat 5$\alpha$-androstenone content in the young boar ..... 241
Enzymology
Activity of $\Delta^5$-3$\beta$-hydroxysteroid dehydrogenase, succinate dehydrogenase, and glucose-6-phosphate dehydrogenase in bovine luteinized follicular cysts and corpora lutea of estrous cycle: a quantitative histochemical study ..... 145
Fertility
Factors related to calf crops of Brahman, Brahman crossbred and Hereford × Shorthorn cows in a stressful tropical environment ..... 1
Fertility in Purebred Arab horses in Turkey ..... 265
Follicle
Activity of $\Delta^5$-3$\beta$-hydroxysteroid dehydrogenase, succinate dehydrogenase, and glucose-6-phosphate dehydrogenase in bovine luteinized follicular cysts and corpora lutea of estrous cycle: a quantitative histochemical study ..... 145
Intraovarian effect of the corpus luteum on ovarian follicles during early pregnancy in heifers ..... 53
New concept for control of folliculogenesis during pregnancy in ewes: role of the corpus luteum ..... 113
Genetics
Factors related to calf crops of Brahman, Brahman crossbred and Hereford × Shorthorn cows in a stressful tropical environment ..... 1

Gonadotrophin
Luteal characteristics and embryonic survival in gilts treated with human chorionic gonadotrophin during early pregnancy ..... 217
Gonadotrophins, general
Correlation of mating behaviour of bulls with patterns of gonadotrophins and oestrogens in oestrous cows ..... 95
Horse
Duration and pattern of follicular evacuation during ovulation ..... 131
Fertility in Purebred Arab horses in Turkey ..... 265
Immunology
Potential of active immunization against androstenedione to improve fecundity in sheep ..... 101
LH
Age-related changes in plasma LH and testosterone concentration profiles and fat 5$\alpha$-androstenone content in the young boar ..... 241
Involvement of progesterone and luteinizing hormone in the termination of the post-ovulatory rise in plasma oestradiol-17$\beta$ concentration in cattle ..... 27
Reproduction in the female dromedary (*Camelus dromedarius*): a review ..... 273
Superovulation of cows with PMSG: variation in plasma concentrations of progesterone, oestradiol, LH, cortisol, prolactin and PMSG and in number of preovulatory follicles . 37
Litter size
Direct estimation of estrone sulfate in serum and urine of pregnant swine as indicators of litter size at birth ..... 121
Metabolism
Interrelationships between motility, c-AMP, respiration and calcium uptake of ram and boar sperm ..... 189
Nutrition
Effect of beta-carotene supplementation on periparturient health and reproduction of Holstein cows ..... 139
Factors related to calf crops of Brahman, Brahman crossbred and Hereford × Shorthorn cows in a stressful tropical environment ..... 1
Oestradiol
Superovulation of cows with PMSG: variation in plasma concentrations of progesterone, oestradiol, LH, cortisol, prolactin and PMSG and in number of preovulatory follicles . 37
Oestradiol-17$\beta$
Involvement of progesterone and luteinizing hormone in the termination of the post-ovulatory rise in plasma oestradiol-17$\beta$ concentration in cattle ..... 27
Oestrogens
Correlation of mating behaviour of bulls with patterns of gonadotrophins and oestrogens in oestrous cows ..... 95
Direct estimation of estrone sulfate in serum and urine of pregnant swine as indicators of litter size at birth ..... 121
Pregnancy diagnosis in sows by estimation of oestrogens in blood, urine or faeces ..... 209
Oestrous cycle
Activity of $\Delta^5$-3$\beta$-hydroxysteroid dehydrogenase, succinate dehydrogenase, and glucose-6-phosphate dehydrogenase in bovine luteinized follicular cysts and corpora lutea of estrous cycle: a quantitative histochemical study ..... 145
Reproduction in the female dromedary (*Camelus dromedarius*): a review ..... 273
Oocytes
Loss of the cellular vestment surrounding superovulated sheep oocytes ..... 169

Ovulation
Duration and pattern of follicular evacuation during ovulation in the mare ..... 131
Superovulation of cows with PMSG: variation in plasma concentrations of progesterone, oestradiol, LH, cortisol, prolactin and PMSG and in number of preovulatory follicles . 37
Parturition
External signs of preparation for calving and course of parturition in Swedish dairy cattle breeds ..... 61
Influence of relative birth weight and certain other factors on calving performance in Swedish dairy cattle breeds ..... 81
Pig
Age-related changes in plasma LH and testosterone concentration profiles and fat 5$\alpha$-androstenone content in the young boar ..... 241
Concentrations of steroid hormones, and of relaxin, in utero-ovarian venous plasma of periparturient sows ..... 227
Direct estimation of estrone sulfate in serum and urine of pregnant swine as indicators of litter size at birth ..... 121
Genital tract development and histomorphometrical traits of the testis in the young boar: relationships with fat 5$\alpha$-androstenone levels ..... 259
Interrelationships between motility, c-AMP, respiration and calcium uptake of ram and boar sperm ..... 189
Luteal characteristics and embryonic survival in gilts treated with human chorionic gonadotrophin during early pregnancy ..... 217
Pregnancy diagnosis in sows by estimation of oestrogens in blood, urine or faeces ..... 209
PMSG
Superovulation of cows with PMSG: variation in plasma concentrations of progesterone, oestradiol, LH, cortisol, prolactin and PMSG and in number of preovulatory follicles . 37
Pregnancy
Intraovarian effect of the corpus luteum on ovarian follicles during early pregnancy in heifers ..... 53
Luteal characteristics and embryonic survival in gilts treated with human chorionic gonadotrophin during early pregnancy ..... 217
New concept for control of folliculogenesis during pregnancy in ewes: role of the corpus luteum ..... 113
Reproduction in the female dromedary (*Camelus dromedarius*): a review ..... 273
Pregnancy diagnosis
In sows by estimation of oestrogens in blood, urine or faeces ..... 209
Progesterone
Factors related to calf crops of Brahman, Brahman crossbred and Hereford × Shorthorn cows in a stressful tropical environment ..... 1
Involvement of progesterone and luteinizing hormone in the termination of the post-ovulatory rise in plasma oestradiol-17$\beta$ concentration in cattle ..... 27
Reproduction in the female dromedary (*Camelus dromedarius*): a review ..... 273
Superovulation of cows with PMSG: variation in plasma concentrations of progesterone, oestradiol, LH, cortisol, prolactin and PMSG and in number of preovulatory follicles . 37
Prolactin
Superovulation of cows with PMSG: variation in plasma concentrations of progesterone, oestradiol, LH, cortisol, prolactin and PMSG and in number of preovulatory follicles . 37
Puberty
Age-related changes in plasma LH and testosterone concentration profiles and fat 5$\alpha$-androstenone content in the young boar ..... 241

Genital tract development and histomorphometrical traits of the testis in the young boar: relationships with fat 5α-androstenone levels ..... 259
Relaxin
Concentrations of steroid hormones, and of relaxin, in utero-ovarian venous plasma of periparturient sows ..... 227
Sheep
Effect of egg yolk on the control of intracellular calcium in ram spermatozoa cooled and stored at 5 °C ..... 177
Interrelationships between motility, c-AMP, respiration and calcium uptake of ram and boar sperm ..... 189
Loss of the cellular vestment surrounding superovulated sheep oocytes ..... 169
New concept for control of folliculogenesis during pregnancy in ewes: role of the corpus luteum ..... 113
Potential of active immunization against androstenedione to improve fecundity in sheep ..... 101
Spermatozoa motility
Effect of ions and caffeine on the maintenance of motility of bovine spermatozoa diluted in egg yolk buffers ..... 161
Interrelationships between motility, c-AMP, respiration and calcium uptake of ram and boar sperm ..... 189
Spermatozoa preservation
Effect of egg yolk on the control of intracellular calcium in ram spermatozoa cooled and stored at 5 °C ..... 177
Effect of ions and caffeine on the maintenance of motility of bovine spermatozoa diluted in egg yolk buffers ..... 161
Steroids
Concentrations of steroid hormones, and of relaxin, in utero-ovarian venous plasma of periparturient sows ..... 227
Stress
Some factors related to calf crops of Brahman, Brahman crossbred and Hereford × Shorthorn cows in a stressful tropical environment ..... 1
Superovulation
Loss of the cellular vestment surrounding superovulated sheep oocytes ..... 169
Of cows with PMSG: variation in plasma concentrations of progesterone, oestradiol, LH, cortisol, prolactin and PMSG and in number of preovulatory follicles ..... 37
Testis
Genital tract development and histomorphometrical traits of the testis in the young boar: relationships with fat 5α-androstenone levels ..... 259
Testosterone
Age-related changes in plasma LH and testosterone concentration profiles and fat 5α-androstenone content in the young boar ..... 241
